

**Adenoviral Reference Material Working Group
Submission Form
Donation of Supplies or Other Services
RFP 3.0**

Item for Submission

Adenovirus Reference Material will be produced in a series of donated activities including production of a virus bank, production of purified formulated bulk reference material, and vialing/freezing of reference material. Suppliers may propose donations of reagents or equipment, or donors may provide other services, such as testing.

General Requirements for Bidding

Proposal should include as much detailed information about the proposed donation as possible. Proposal should include clearly stated limitations or intended/best use of reagents or equipment. If for testing services, the bid should indicate what tests and for which activities the testing service is offered. A description of the test method should be provided.

For reagents and equipment, the donor should indicate when material would be available for use and include information on how they propose to transfer the material to the end user.

For testing service donations, the donor should indicate the amount of time required from receipt of a specific test article until provision of final report(s).

Documentation Requirements

To support requirements listed above.

Please complete the following fields:

Contact Information – RFP 3.0

Contact Individual:	Dale F. Gruber (DFG) Eric J. Cornavaca (EJC)
Institution:	Life Technologies Division of Invitrogen Corporation
Address:	3175 Staley Road Grand Island NY 14072
Phone Number:	716 774 6908 (DFG) 716 774 6660 (EJC)
Email Address:	<u>dgruber@lifetech.com</u>

Donation of Supplies and Other Services Information – RFP 3.0

Please indicate if your institution is also submitting proposals for the other activities:

- Donation of Cell Bank
- Donation of Ad5 Wild-type Virus
- Ad5 Wild-type Virus Bank Production
- Ad5 Wild-type Purified, Formulated Bulk Production
- Donation of Repository Services
- Vialing of Ad5 Wild-type Reference Material

Please attach: Information related to the proposed donation
Life Technologies would like to supply/donate reagents, cells and/or tissue culture medium to appropriate manufacturing sites engaged in the production of adenovirus for the global standardization initiative. Appropriate protocols, samples and technical service can be made readily available to manufacturers. Donation of the aforementioned not to exceed \$10,000 in total.

Submit this completed form and all attached information for receipt **by February 28, 2001** to the address below. Electronic submissions are encouraged. Final decisions will be communicated by or about March 31, 2001. Please note that all information submitted will be publicly available. Please do not mark any information confidential, as we cannot honor that request. Please provide an estimate of the cost and market value of goods and/or services donated.
