

**Adenoviral Reference Material Working Group
Submission Form
Donation of Supplies or Other Services
RFP 3.0**

Item for Submission

Adenovirus Reference Material will be produced in a series of donated activities including production of a virus bank, production of purified formulated bulk reference material, and vialing/freezing of reference material. Suppliers may propose donations of reagents or equipment, or donors may provide other services, such as testing.

General Requirements for Bidding

Proposal should include as much detailed information about the proposed donation as possible. Proposal should include clearly stated limitations or intended/best use of reagents or equipment. If for testing services, the bid should indicate what tests and for which activities the testing service is offered. A description of the test method should be provided.

For reagents and equipment, the donor should indicate when material would be available for use and include information on how they propose to transfer the material to the end user.

For testing service donations, the donor should indicate the amount of time required from receipt of a specific test article until provision of final report(s).

Documentation Requirements

To support requirements listed above.

Please complete the following fields:

Contact Information – RFP 3.0

Contact Individual:	Dan Freymeyer
Institution:	EM Processing
Address:	480 Democrat Road Gibbstown, NJ 08027

EM Processing, the US affiliate of Merck KGaA, Darmstadt, Germany would like to make available products from two of its product lines. These two products are often used in the manufacture of adenovirus vectors. The products available for donation are:

Benzonase® endonuclease
Fractogel® EMD chromatography resins (anion exchangers)

We have reasonable quantities of these products available for donation; however, supplies are not unlimited. Therefore, we ask that interested parties contact us directly to discuss quantities required, timing and shipping details.

Should we exhaust all available supplies for donation, it is possible we could make additional quantities available at discounts from normal commercial prices.

For any other questions contact us directly at the above location.
